Professional Summary

Full-stack Software Engineer with **1+ year** of experience designing and building production-grade web applications. Skilled across the stack, crafting responsive UIs, integrating APIs, raising overall quality, and collaborating in Agile teams.

Skills

Frameworks/Libraries :	React.js, Next.js, Tailwind CSS, Express.js, Node.js, Redux, Zod, Formik, Vitest
DevOps & Cloud :	AWS (Basics), CI/CD, Docker, Linux, GitHub Actions
Databases :	MongoDB, PostgreSQL
Programming Languages :	JavaScript, C++, HTML, CSS, Typescript, SQL
Tools/Platforms :	Figma, Jira, Sonarqube, Checkmarx, GitHub, Postman, Git

Work Experiences

Software Engineer | Full-time — Sep 2025 - Present
Centralogic Consultancy — Pune, Maharashtra

- Led a squad of **4 engineers** to deliver a critical module for Monotype Fonts, ensuring an on-time release with **zero critical production defects**.
- Architected **REST & GraphQL API** integrations and enhanced frontend components, resolving **performance issues** by eliminating redundant API calls and improving backend modularity and page responsiveness.
- Built reusable, type-safe UI components in **React and TypeScript** with Tailwind CSS, backed by unit tests, keeping the module consistent, maintainable, and release-ready.
- Strengthened code quality and security through **SonarQube & Checkmarx**, reaching **85%+ test coverage** and cutting vulnerabilities by **40%**.

Technologies / Skills Used : REST APIs, GraphQL, SonarQube, React, Unit Testing, Agile, TypeScript, Tailwind CSS

Software Engineer | Full-time — May 2025 - Aug 2025
Tech Superior Consulting — Gurugram, Haryana

- Engineered an enterprise-grade operations portal for the steel industry, digitizing end-to-end workflows and eliminating manual processes, collaborating in a **6-member** Agile team.
- Integrated REST APIs and resolved critical bugs in legacy systems, lowering client-reported issues by **30%**.
- Refactored legacy codebase and optimized state management reducing average page load time by **12%** and improving overall performance.

Technologies / Skills Used : REST APIs, Agile, Next.js, PostgreSQL, Tailwind CSS, ShadCN, Node.js, TypeScript

Frontend Developer | Internship — Jun 2024 - Aug 2024
Koders Corporation — On-site • Dehradun

- Developed a video subtitle extraction and embedding tool using **Whisper AI** and **FFmpeg**, achieving **90%+ subtitle accuracy** and adding **6–7** caption overlay styles/effects for enhanced visual presentation.
- Engineered a responsive e-commerce frontend in **Next.js** with REST API integration, ensuring reliable data rendering.

Technologies / Skills Used : Next.js, Tailwind CSS, REST APIs, SSR, Whisper AI, JavaScript

Projects

Calorie Estimation and Tracking Platform | Demo — Nov 2024 - Dec 2024

- Developed a calorie tracking app featuring authentication and real-time monitoring, with **~92% accuracy**.
- Created REST APIs and implemented tailored calculations for efficient data handling.

Technologies / Tools Used : React, MongoDB, Express, Tailwind CSS, Node.js, JavaScript

AI Content Generator | Demo — Jul 2024 - Sep 2024

- Built an AI-powered content generation platform utilizing the **Gemini API** for dynamic user-driven outputs.
- Implemented features such as code generation, rewriting, grammar correction, SEO optimization with a responsive UI.

Technologies / Tools Used : Gemini API, Next.js, Node.js, Clerk, REST APIs, TypeScript

Educations

Dev Bhoomi Uttarakhand University | Dehradun, Uttarakhand — Aug 2021 - May 2025
Bachelor of Technology in Computer Science — CGPA : 8.3
